HYDROGEN TASKFORCE

HYDROGEN TASKFORCE CHARTER

SECURING HYDROGEN'S ROLE IN THE FUTURE ENERGY MIX

OUR COMMITMENTS:

- We are aligning some of the hydrogen industry's biggest organisations to define our approach and delivery behind a cross-vector vision
- Working with Government to secure tangible support to aid the creation of infrastructure and delivery frameworks
- We will work with Government to create a thriving hydrogen economy to deliver on Industrial Strategy and Net Zero commitments
- Realising this vision by meeting industry's needs with political support and tangible delivery. Bringing clear, consistent advocacy to UK Government to capture the interest of key decision makers

INVESTMENT:

- We will cultivate the necessary investment conditions to take hydrogen technologies from emerging to scalable
- The Taskforce members and supporting organisations are ready to invest in creating the hydrogen economy that helps deliver the Industrial Strategy
- We will ensure that the UK is at the forefront of the international hydrogen economy to deliver excellence throughout the supply chain and creating a globally attractive export

ENERGY & ENVIRONMENT

- We will facilitate hydrogen's role as a key means to decarbonise heat, power and transport and strengthen the UK's security of supply and system resilience
- We see hydrogen being at the forefront of helping to delivery greater biodiversity and ecological development

OUR ASKS:

- Working closely with Government
- Creating an environment to deliver world leading infrastructure and delivery frameworks
- Asking Government to look beyond the traditional focus areas for hydrogen and accept a cross-vector vision for the sector
- Responding to a unified voice for the hydrogen industry and offering tangible support to aligned objectives
